

METRO NEWS

Welcome to our first edition of Metro News. We are Manufacturer Representatives supporting the 6 New England states (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont), and New Jersey, New York, and Pennsylvania. For the past 30 years we have been providing service and support in the industrial, utility, commercial, military and transit electrical markets.

We specialize in technical sales with product lines that are specification driven.

We like to welcome our newest manufacture, **ABB**, to our product line portfolio. ABB will be a great addition for products like Dry Type and Liquid Filled Transformers, LV & MV Switchgear, Circuit Breakers and Associated Equipment, Turnkey Systems and Services for Power Transmission and Distribution Grids.
